EDUCATION

B.S. Computer Science
Hope Scholarship Recipient, President's List · Georgia State University · Atlanta, GA · 2023 · 3.69 GPA

SKILLS

Programming Languages: Python, Java, C, JavaScript, HTML, CSS , PHP

Libraries & Frameworks: Flask, Angular, React, Next.js, NumPy , pandas, matplotlib, SQLAlchemy

Other Tools: Git, SQLite, Heroku, PostgreSQL, WordPress, Excel, Github, Unix

PROJECTS

NBA Player Tracker
· Created a Python Flask app to let people add and keep track of their favorite players in the NBA on one page with real-time statistics.
· Worked with a team of 3 other developers using scrum agile methodology to complete our spring goals by their deadlines.

TMDB Movie Explorer
· Created a full stack web application using JavaScript(React) that fetches and displays information about a random movie using TMDB's and Wikipedia's API.
· Allowed users to create accounts to be able to save their favorite movies and leave ratings/comments on movies using flask SQLAlchemy.

Food Hall App
· Created a Java based android mobile app with a team for a local festival to allow users to keep track of events, place orders, and leave ratings for their food truck of choice, and allowed vendors to make and keep track of sales with a SQLite DB.

EXPERIENCE

Server
Del Frisco's Grille   **May 2020 – Present, Atlanta GA**
· Fast paced fine dining serving at one of Buckhead's top steakhouses.
· Maintained a robust knowledge of our menu and wine list to proactively up-sell menu items to guests while ensuring customer satisfaction.

Server/Host
Mellow Mushroom   **May 2016 – May 2020, Atlanta, GA**
· As a host, greeted and sat customers and ensured restaurant cleanliness.
· Responsible for taking orders and making sure they were correct before bringing them to the customer

Chess Teacher/Trainer
Chess2Children   **September 2017 – December 2019, Smyrna, GA**
· Taught kids aged 5-13 how to play chess and ran signups at school open houses.
· Learned how to break down complex subjects into simpler easier to understand concepts and trained other teachers.
· Increased signups more than 2x and improved retention rates of classes at schools taught by me.

Electrician
L.E.B. Electric   **May 2016 – August 2019, Copiague, NY**
· Worked on a team installing, repairing, and testing the safety of all the wiring in residential buildings and of a University.
· Assisted in the design, installation, and integration of electrical systems in union contract projects.

INVOLVEMENT

Vice President Internal
Georgia State University, Atlanta · Pi Kappa Alpha · August 2018 – Present
